VERTICAL

e-MatriX Vertical

Vertical fireplaces are growing in popularity in Europe and are real eye-catchers in homes, penthouses, exclusive restaurants or hotel lobbies. The so-called “see-through” variants in particular are very popular because they make it possible to connect multiple spaces in a visually appealing way. With our new e-MatriX Vertical we are responding to this clear market demand and because it is 100% electric, we also offer a unique proposition. Thanks to our patented water vapor technology, we are the only fireplace manufacturer in the market to offer a fully-fledged vertical see-through fireplace. Add to this the lack of an exhaust need and the application possibilities are endless!

These models come standard with:

- Electric additional heating unit
- Faber app

e-MatriX Mood Fires

The frameless design, fascinating flames, the broad and lifelike wooden decoration and the embers (option) of the electric e-MatriX Mood all combine to give a superbly rich and full looking fire that is permanently fascinating. A future-proof alternative for an authentic fireplace, with pioneering features: truly three-dimensional flames, safe, low-energy, without gas, emissions or a chimney. The atmosphere is infinitely adjustable thanks to the Faber app or the remote control. And so the e-MatriX Mood can be used and is allowed almost anywhere. Conscious and responsible enjoyment!

These models come standard with:

- Electric additional heating unit
- Faber app
- Depth frame of 50 mm

e-MatriX
LINEAR

e-MatriX Linear Fires

The low and stretched design of our Linear fires provides a surprisingly stylish way of showcasing the unique flames, decoration and glowing embers (option). Or would a stone or crystal fireplace decoration better suit your interior? Those are also options! The modern design, along with the lack of a chimney and gas connection offer unique freedom for striking yet at the same time sustainable interior design.

These models come standard with:

- Electric additional heating unit
- Faber app
- Depth frame of 50 mm

e-BoX

The electric Faber e-BoX series has been developed especially for true fire connoisseurs who are looking for a complete and 100% future-proof alternative to an atmospheric gas or wood fire, and who value a good price-quality ratio. The new Faber e-BoX series provides a unique solution for the full enjoyment of a swirling, atmospheric fire, without the traditional limitations that may be associated with a built-in gas or wood fire. For example, limitations because of the living environment (city), apartment blocks, the lack of a connection to the gas grid or a chimney, or because there is no room to build in a fire.

These models come standard with:

- Electric additional heating unit
- Bluetooth remote control

For more information take a look at the website: **www.faberfires.com**

The prices are recommended prices in Euro (€) and are valid from 01.10.2024 to 31.08.2025.
The options per fireplace have an additional cost.
